# Global SIM

## STAY CONNECTED ANYWHERE

A Global SIM is a SIM card that provides international cellular coverage across multiple regions. It ensures connectivity regardless of location, offering better coverage in areas with poor cellular connectivity by seamlessly switching between networks. With our global SIMs, you have complete control over your data usage. Managing your SIM is easy through the **Obscape Data Portal**, select and adjust your preferred bundle size and coverage area, optimize costs, by deactivate and reactivate SIMs when devices are not in use. Keep track of your credit balance and monthly consumption.

## KEY FEATURES

- 01 Global cellular connectivity :** Ensure continuous data transmission from your Obscape device, even in areas with low or inconsistent cellular coverage.
- 02 Access to over 300 networks worldwide:** Stay connected no matter where your device is located with reliable service and seamlessly switches between networks.
- 03 Affordable rates :** Enjoy competitive pricing on Global SIM plans with transparent, affordable rates. You'll benefit from cost-effective solutions without sacrificing coverage.
- 04 SIM management via the Obscape Data Portal:** Track usage and adjust settings in one place, making it simple to oversee multiple devices using global SIMs.

## PURCHASE INCLUDES

- €100 of data credit
- Easy SIM management on the **Obscape Data Portal**

## PRICING STRUCTURE

Global SIM cards work on a prepaid credit system. You start by purchasing credits in **€100** increments. In most countries, €100 is enough to keep your device running continuously for anywhere between 1 and 12 years, depending on data usage and local rates. At the end of each month, the amount of data your device used is calculated, and the corresponding cost is deducted from your remaining credit. When your balance runs low or reaches zero, you simply top up by purchasing another €100 credit package via the **Obscape Data Portal**.

### MONTHLY RATES

Rates vary depending on the selected data bundle and your deployment region. Suggested bundles per device type:

**1000 MB – 5000 MB** bundles are generally needed for the 5<sup>MP</sup> Time-Lapse Camera, F12<sup>MP</sup> Time-Lapse Camera and the D12<sup>MP</sup> Time-Lapse Camera

**500 MB** bundle is best for: **OBS-BUOY 7<sup>WATT</sup>**, **OBS-BUOY 400**, Wave Gauge with real-time displacement time series

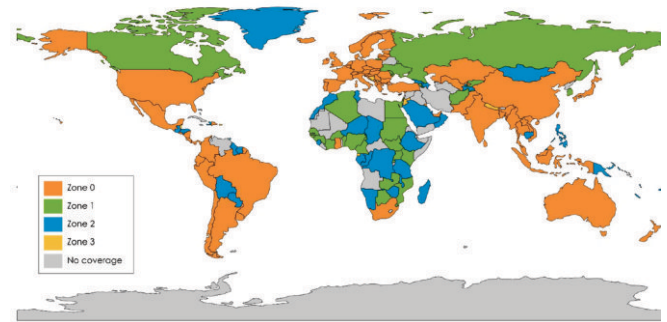

**20 MB** bundle is best for: **OBS-BUOY 7<sup>WATT</sup>**, **OBS-BUOY 400**, Wave Gauge in standard operation (No real-time displacements)

**50 MB** bundle is suitable for most other Obscape devices

Monthly rates vary by zone and bundle size, as shown in the table below. Prices are subject to change - please confirm current pricing with your Obscape sales representative.

## SIM MANAGEMENT

All global SIMs are compatible with any available bundle size and zone. You can easily select and adjust the bundle size and coverage area for each SIM at any time via the **Obscape Data Portal**. Additionally, SIM cards can be temporarily deactivated or reactivated through the portal, enabling you to pause monthly charges during idle periods. You can also monitor your credit balance and track monthly usage at any time through the **Obscape Data Portal**.

	Zone 0	Zone 1	Zone 2	Zone 3
20 MB	€ 0.80	€ 0.80	€ 1.50	€ 6.00
